Dear Potential Guest Speaker,

We are Grade 5 students of K.A.S. and we are preparing for the PPT Exhibition on the theme of "Saving the Planet". We are a group of 4 group members. We have chosen for our exhibition the topic "Energy". We have chosen this topic because we would like to inform people that energy is important, and we can save energy by using energy-saving devices.

We would be grateful if you could assist us in the following questions:

1. What are the primary forms that other people think of as energy?
2. What is the primary form of energy that is used in our homes?
3. If we could store some of our resources would it be possible to produce energy?
4. Would food be a renewable resource? Is it possible to produce it again?

On behalf of our team at K.A.S., we would like to thank you for your effort and support.

Sincerely,
Maha Alsharif

Smoking

The history of smoking dates back to 5,000 BC, and has been found in many different cultures around the world.

When Europe explored the two American continents, this contributed to the rapid spread of tobacco to all parts of the world.

1502 AD during the times of sultan Akhmet I, and after that smoking was banned and prohibited for the residents of Jerusalem in 1833 AD during the times of sultan Murad IV.

Effects of smoking

Adiction:

Nicotine is the main addictive chemical in tobacco. It causes a rush of adrenaline when absorbed in the bloodstream or inhaled via cigarette smoke. Nicotine also triggers an increase in dopamine.

Symptoms of addiction:

- Craver stop smoking
- Daily needs smoking, irritability, or rapid heart rate
- Must smoke or chipe after every meal
- Needs tobacco products to feel "normal"
- Continue to smoke despite health problems

malmashady : We want to help improve the situation (ACTION PLAN) for poverty central idea

Our team made a donation for orphan children in need and we hope Allah's blessings for them. On behalf of team members: Maan, Malik, Abdelrahman and Omar, our great Teacher Mr. Walid and mentor Mr.Foad. Special thanks to Maan and his Family.

malmashady : We want to help improve the situation (ACTION PLAN) for poverty central idea

We are caring human beings and we feel empathy towards less fortunate people, that is why we made a donation for orphan children. We wish we could have made a field trip, but due to Corona virus pandemic restrictions, we could not achieve it. Having said so, we feel blessed that we could help with our donation in a small way.

malmashady : success in his work and Allah's support for unprivileged people.

Interview with Mr. Foad
POVERTY, PVP EXHIBITION
CHARITY ORGANIZATION INTERVIEW 4/10-5-2021

Question: Charity organizations and foundations in Saudi Arabia are doing great job in empowering underprivileged children for people in need. Could you please describe your Charity or Foundation's name, location and main area of work?
 Answer: In Hadya Almazini, I'm PE Director of "مجمع خيرية" (Medina Almazini) "Poverty Charity". We are located in Hadya Almazini, Makkah, 5 km from district and we concentrate in all aspects of reducing poverty (financial, educational, social).
 Question: How do you think about the economic, educational and social effects of poverty on people. Could you be in a position to help what are the consequences of poverty that you see in your country?
 Answer: Each family of unprivileged has different causes of poverty and different effects. We do research and analysis of families' needs and assist them accordingly for some people we pay apartment rent, for some we do the training for some we pay health fees etc.
 Question: What are the factors that you think are most responsible for the increase of poverty? Which one of these projects is most effective for them?
 Answer: Our concrete projects are:
 - Financial help (restoration of building, electricity bills payment, rent bills payment, helping for...)
 - social help (people in extreme hardship - meeting meeting needs)
 - educational help (spring and rehabilitation - spiritual, sustenance, food, etc.)
